

ROACH, INFANT

[The Winterset Madisonian, September 15, 1904, Page 8]

The little girl of John Roach is very ill with Typhoid Fever.

[The Advocate Tribune, Indianola, Iowa, Thursday, October 27, 1904]

Mr. Roach's young child is very ill.

[The Indianola Advocate Tribune, Thur., November 3, 1904, Page 2, Column 1]

J. Roach's buried their youngest child last week after a lingering illness. All that medical aid could do was of no avail. They have the sympathy of their many friends.

I believe this child is buried in PleasantRidgeCemetery on the John Roach lot.
